

Information Sheet
Gutter Cleaning & Building Maintenance

**DO YOUR GUTTERS
LOOK LIKE THIS?**

Winter is on its way !

Are your gutters up to the job?

Can you afford to risk water damage?

Who will do this essential maintenance work?

We can help

Call us for a fixed price quotation

Local Company—National Reputation

Experts in work at height and difficult access

Call 01270 589615

Up and Under (Specialist Contracts) Ltd. is a Crewe based company that has been carrying out high level, safety critical construction and maintenance projects since 1987.

We are offering you the opportunity to have essential pre-winter maintenance carried out at a competitive fixed price. Gutters clogged with leaf litter, bird droppings and vegetation will not perform effectively, causing water to overtop, potentially damaging your building and its contents.

Failure to properly maintain your building can have consequences in the event of an insurance claim.

We would be happy to quote for other building maintenance and safety projects including

- Installation, testing & certification of fall protection systems
- Installation & testing of window cleaning eye bolts
- Cleaning or coating applications
- Repairs and maintenance at height
- Safety training, confined spaces, work at height, vehicle safety

We also carry out building surveys and inspection work nationwide
