

QUALITY POLICY

The Company is committed to providing a service that meets the needs and expectations of its customers in terms of quality and cost. The service must also comply with relevant technical standards, regulations and legal requirements.

Quality is a shared responsibility. The Company provides equipment, systems, training and leadership. It is the shared responsibility of everyone in the Company to ensure that the appropriate standards are achieved in every aspect of our operations.

Our commitment also extends to working with suppliers and customers to establish and maintain high levels of quality.

The Management of the Company will make all reasonable efforts to ensure that all staff members are aware of and understand the relevant components of the Quality Management Systems. This will be affected through training and effective communication.

The Management of the Company will review the Quality Management System and associated procedures on a regular basis to ensure that it continues to be effective and relevant. Key drivers for this continual improvement are developed in the form of specific objectives, which are regularly reviewed with appropriate consultation throughout the company.

The Company is externally accredited to ISO 9001:2015.
